I. Introduction

Introducing the **European Citizens' Initiative (ECI) Forum Welcome Package** for organisers of European citizens' initiatives.

The ECI Forum is the support centre and an online collaborative platform (available in all 24 official EU languages) that provides advice and information to all potential and current organisers of European citizens' initiatives before, during and after the process of launching and implementing an initiative. This package is structured into four sections, each dedicated to equipping you with the essential knowledge and tools to navigate the ECI process.

This Welcome Package has been developed by the ECI Forum team, led by the European Citizen Action Service (ECAS) on behalf of and under contract with the European Commission.

II. Getting Started: What you need to know to successfully carry out a European citizens' initiative

Collecting Signatures and getting them verified:

Remember - Signatories need to be EU citizens (nationals of EU Member States) and old enough to vote in European Parliament elections (age 18 in most Member States) – unless the Member State has decided to lower the minimum age for initiative signatories to 16 and has informed the Commission about it. See the <u>list of age and data requirements</u>.

For valuable insights into the verification process and avoiding invalid signatures, read the blog post titled "National Authorities Take on How to Ensure Your Signatures Get Verified", featuring interviews with national authorities.

Discover the <u>Success Stories</u> of initiatives that collected more than one million signatures and received the Commission's reply. You can also read more about their strategies in these two blog posts:

Understanding the central online collection system

The central online collection system is a tool provided by the European Commission to ECI organisers to collect statements of support online. As of 2023, it is the only system that organisers of new initiatives can use to collect statements of support online.

IV. How to register to the ECI Forum using two-factor authentication

To use many of the functionalities of the European Citizens' Initiative (ECI) Forum (join discussions, find partners, submit enquiries, etc.), you need to register and log in. You will be redirected to EU Login service, which is used to authenticate on the ECI Forum. If you do not have an EU Login yet, you can create one here. For detailed information about the EU Login and two-factor authentication process, refer to the user guide.

What is EU Login?

EU Login is the European Commission's user authentication service. It allows authorised users to access a wide range of European Commission web services using a single email address and password. To access the ECI Forum, you may need to complete the two-factor authentication using EU Login.

What is two-factor authentication?

Depending on the security level required by the application you are accessing, single-factor (email + password) or two-factor (username + password + challenge) authentication might have to be provided. For the ECI Forum, the two-factor authentication is required, so you will need to set up an additional verification method from the available options:

- EU Login Mobile App PIN code
- EU Login Mobile App QR code
- Mobile phone + SMS
- Security Keys (SK) and Trusted Platforms (TP)

The EU Login Mobile App is an application you can install on your mobile device from the Google Play Store (Android) or the App Store (iOS). Using the EU Login Mobile App in combination with the password provides additional security.

What do I do if I encounter technical issues?

If you encounter issues accessing your EU Login account, you can register an incident with the EU Login External Support team. To report an incident, contact the EU Login External Support between 8:00 and 17:00 CET via EU-LOGIN-EX-TERNAL-SUPPORT@ec.europa.eu.

For more information on contacting the EU Login support team, you can refer to their <u>contact page</u>.
